

# Connection and protection components for LV distribution system

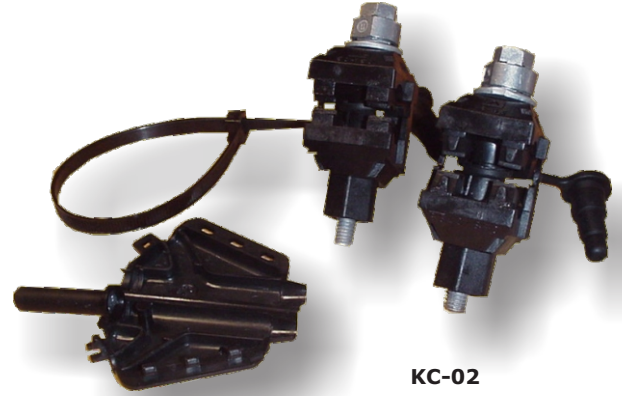

## KC - Connection Kit

### General description

The connection Kits includes connectors (DCNL), concentric cable shunts (DCC), plastic straps (PP), fuse holders (DPA) and fuses.

There are several models so they can adapt to the different type of lines and materials used by each electrical utility.

When carrying out the connection from aerial bundled cables with concentric conductors or ABC service lines, as all the accessories included in the kits are necessary to make one proper connection, with a single box, it improves the control and storage management.

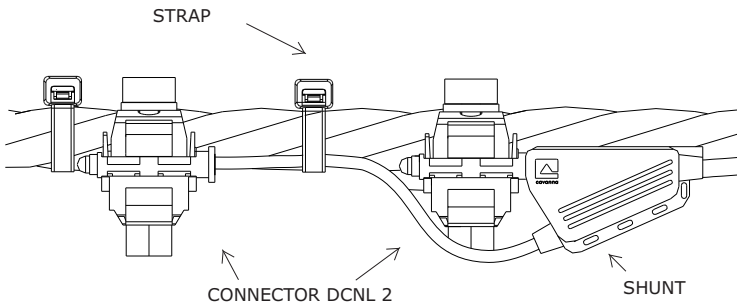

### Table of models

(Kits are some commonly used, in case you need another combination request in its components)

MODEL	FOR NEUTRAL				FOR PHASE				ANCHOR			
	SHUNT	CONNECTOR		CONNECTOR	PROTECTION	FUSE		STRAP				
	MODEL	MODEL	MODEL	MODEL	MODEL	MODEL	MODEL	MODEL	MODEL			
KC 01	DCC	1	DCNL 1	1	DCNL 1	1	DPA	1	IFN 63	1	PP250	1
KC 02	DCC	1	DCNL 2	1	DCNL 2	1	DPA	1	IFN 63	1	PP250	1
KC 04	DCC	1	DCNL 1	1	DCPA-E	1	INCLUIDA	-	IFN 63	1	PP250	1
KC 05	DCC	1	DCNL 1	1	DCNL 2	1	DPA	1	IFN 63	1	PP250	1
KC 06	DCC	1	DCNL 2	1	DCNL 2	1	-	-	-	-	PP250	1
KC 07	DCC	1	DCNL 1	1	DCNL 2	1	-	-	-	-	PP250	1
KC 09	DCC	1	DCNL 1	1	DCNL 1	1	-	-	-	-	PP250	1
